COST ACTION FP1301

"Innovative management and multifunctional utilization of traditional coppice forests - an answer to future ecological, economic and social challenges in the European forestry sector (EuroCoppice)"

WG 1 Meeting Notes

Ramada Majestic Hotel, Bucharest, Romania
19th of October 2015

Minutes Summary

Participants:
Vice leader WG 1 Mr. Pieter D. KOFMAN,
MC Member Prof. Enrico MARCHI ,
MC Substitute Dr. Martin KÜHMAIER ,
Rob JARMAN,
Ivailo I.MARKOFF ,
Kristaps MAKOVSKIS,
Radomir KLVAC,

WG Leader: Dr.silv. Dagnija Lazdina

Rapporteur: *working group leader Dagnija Lazdina*

Agenda
Completed tasks and progress
List of actual tasks and deadlines
Discussions about typology criteria selection
Presentation of updates in Glossary
Future working plan

Glossary updates:
- All terms collected in STSM missions were discussed and most relevant terms were selected for description finding. Some terms were highlighted according to their link to coppice. Terms needed more then one description were selected and synonyms were identified. It was decided, that for some terms for better understanding, illustrations are needed.
- Glossary will be translated into different languages. Term translation is mandatory, but description translation from English will be advisable.
- The terms form coppice glossary would be added to already existing "Forest Biomass Glossary", which was developed within COST Action FP 0902. In this existing glossary, new category "coppice" would be added and all terms related to coppice management would be displayed there.

Future works on glossary:

- Selected terms with descriptions would be send by email to other Eurocoppice WG members.
- Each of the member should be asked to indicate by colouring, underlining or making other marks to the data file for term relevance.
- If possible, existing descriptions should be commented (modified) and non-existing descriptions should be suggested.
- When all comments, attachments and improvements would be done, the glossary draft will be presented in next WG1 meeting.
- During the meeting the final version will be developed and sent to English native speakers for proof.
- When all translation will be done, the Glossary will be presented through web page or any other informational channel.
